

DUONG DUY DANH

Backend PHP Engineer

Email: duydanh2012.job@gmail.com

Phone: +84 337 136 172

DOB: 20/12/1999

PROFESSIONAL PROFILE

Full-stack Backend PHP Engineer with 4+ years of experience designing, developing, and maintaining scalable web applications. Specialized in Laravel & Phalcon frameworks with strong expertise in RESTful API design, third-party integrations, and database optimization. Proven track record of delivering high-performance solutions for e-government systems, enterprise platforms, and business management systems.

CORE TECHNICAL SKILLS

- **Backend Frameworks:** Laravel, Phalcon, Spring Boot
- **API Development & Integration:** RESTful API design, third-party API integration, webhooks, OpenAPI documentation
- **Databases:** MySQL, Oracle SQL, MongoDB, Elasticsearch
- **Frontend:** Angular, JavaScript/jQuery, HTML/CSS, Bootstrap
- **DevOps & Tools:** Git, Postman, DBeaver, PM2, Cloudflare CDN
- **Advanced Features:** Kafka/Kafka Cloud, task automation, bot integration (Telegram/Discord), reporting (JXLS, JasperReports)

PROFESSIONAL EXPERIENCE

VNPT - Full-Stack Backend Developer

May 2023 - September 2025

1022 Citizen Feedback Portal (Oct 2024 - September 2025)

Core Backend Developer | Province-level e-government system for citizen complaints & feedback

- **Core Service Logic:** Designed & implemented dossier workflows, status transitions, and permission-based access control
- **RESTful API Architecture:** Built clean API contracts ensuring seamless service-to-frontend communication; collaborated on API specs with frontend team
- **Asynchronous Processing:** Integrated Kafka for distributed notification delivery across services
- **Code Quality:** PR reviews, architectural improvements, reduced query redundancy
- **Tech Stack:** Java Spring Boot, Angular, Kafka, Elasticsearch, MongoDB

iGate - Public Services Gateway (Jul 2023 - September 2025)

Full-Stack Developer | Online government services platform with dossier management & workflow automation

- **Custom Modules & Business Logic:** Developed & maintained plugins for dossier handling, task flows, permission systems
- **Third-Party Integrations:** Built APIs with webhooks for external partners; direct API calls for payment & notification services
- **Search & Filtering:** Leveraged Elasticsearch for advanced full-text search across dossier history

- **Real-Time Communication:** Applied Kafka/Kafka Cloud for asynchronous inter-service messaging
- **Performance Optimization:** Reduced redundant business logic steps, improved fault tolerance
- **Tech Stack:** Java Spring Boot, Angular, MongoDB, Elasticsearch, Kafka

BIN Corporation Group - PHP Developer

September 2022 - March 2023

- **API Development:** Built RESTful APIs & webhooks for payment processing, notifications, external data sync across 3+ platforms
- **Modular Architecture:** Created reusable website modules & backend components for scalability
- **Database Design:** Designed MySQL schemas supporting multi-site content & complex business rules
- **Tech Stack:** Phalcon Framework, MySQL, JavaScript/jQuery, Bootstrap

SweetSoft Solutions - PHP Developer

March 2021 - June 2022

- **Feature-Rich Modules:** Designed custom plugins extending website functionality with maintainability & scalability
- **Client Customization:** Tailored UI/database layouts to client-specific requirements
- **Tech Stack:** Laravel Framework, MySQL, JavaScript/jQuery, Bootstrap

Freelance - Cloudflare & Frontend Developer

October 2025 - Present

- **CDN & Edge Computing:** Deploy & optimize Nuxt.js applications on Cloudflare; configure SSL, cache rules, WAF, rate limiting
- **Performance-First Development:** Develop landing pages with SEO optimization & high-performance Edge logic
- **Tech Stack:** NuxtJS, JavaScript, MySQL, Cloudflare, PM2

KEY PROJECT HIGHLIGHTS

API Design & Integration Focus

- Designed clean RESTful API contracts for 3+ enterprise platforms with OpenAPI documentation
- Integrated 10+ third-party services (payment gateways, notification systems, CRM platforms) via REST APIs & webhooks
- Built robust error handling & retry mechanisms for external service integrations

EDUCATION

Bachelor of Science - Telecommunications Engineering

Telecommunications University, Vietnam | September 2017 - May 2021

ADDITIONAL INFORMATION

- **Languages:** Vietnamese (Native), English (Fluent)
- **Personal Interests:** Learning emerging backend technologies, travel
